This is a one of a kind property that you have never seen before! The opportunities are limited only by your imagination. Over 35,000 square feet of warehouse space in a restored world war 2 hangar. With over 6000 square feet of additional space between the storage areas and the office and residence. No expense has been spared in completely updating the electrical, roof and general structure of this building. The roof is a Firestone rubber membrane replaced in 2017 and guaranteed for 40 years that will give you many, many years of worry free protection. All lights have been upgraded to LED and the 3 phase electrical has been brought up to today's standards. The office and residence space was added in 2017. The runways are not functional, but approval has been received to have a helipad on the property for easy access. With over 5 acres of land, there is space for everything you want to do. Run a business out of the warehouse space, live in the residence or have your employees live and work on site. Only 15 minutes from Vulcan and about an hour from both Lethbridge and Calgary, this property is perfectly located for easy access to supply chain and customers.
